

DISPOSABLE (NON-REFILLABLE) COMPRESSED GAS CYLINDERS

Definition

A disposable compressed gas cylinder is a container specified by the U. S. Department of Transportation DOT 39 (49 CFR & 178.65) regulations that cannot be refilled and shipped.

Disposal Considerations

To dispose of your cylinder/s, you must follow Federal, state and local regulations. Contact your local sanitation department for your local requirements.

PLEASE NOTE: The gas cylinder must be completely empty at the time of disposal.

Go to <http://www.epa.gov/epawaste/wyl/stateprograms.htm> to find information about your states disposal procedures.
