

Intox Training Academy Center for Online Learning

DOT-Compliant BAT and Collector Training

At Intoximeters, our experienced trainers offer the most comprehensive programs and quality training in the industry. And now the same quality training is available to you online.

The Intox Center for Online Learning combines quality instruction with easy, online convenience. We now offer full DOT-compliant online options, including mock tests, for both BAT/EBT and Urine Drug Screen Collector. These courses are appropriate for regulated and non-regulated workplace testing. Electronic certificates are provided upon successful course completion.

The online courses feature an easy-to-navigate format, interactive instruction, and a thorough learning experience.

Curriculum

The courses are broken down into 2 to 3 online modules, depending upon which course option is chosen:

- 1. Rules and Regulations (procedural training for BAT and/or Collector)**
- 2. Instrument Proficiency (BAT training only)**
- 3. Monitored Mock Tests (webcam session)**

In all cases, the pre-class study must be completed prior to the webcam session. Intoximeters will send activation credentials for online modules to the students about 2 weeks prior to the scheduled webcam session.

How long will it take?

BAT	New BAT	Refresher BAT
Pre-class self study modules (2)	6 to 8 hours	3 to 4 hours
Webcam/Video Conference	3 to 4 hours	3 to 4 hours

UDS Collector	New Collector	Refresher Collector
Pre-class self study module (1)	4 to 6 hours	2 to 4 hours
Webcam/Video Conference	3 to 4 hours	3 to 4 hours

Requirements

- An external, adjustable webcam (not the integrated camera in your laptop or computer) must be available at the training location. Rental cameras are available upon request.
- For Urine Collector training, you must have your own DOT split collection kits and CCFs from your lab for use performing mock tests.
- For Breath Alcohol Technician training, you must have your alcohol testing device, including the printer, in working order and within camera range. You will also need a valid dry gas standard and regulator for accuracy checks.

Intoximeters

101: BAT/EBT Online Course

This course is only for RBT IV / Alco-Sensor IV, RBT VXL, or Alco-Sensor VXL.

Fee: \$475 per person for each session.
